

SBE 86/SBE 86SS

Battery Enclosure with mechanical support

SBE Battery enclosures with support is a robust solution developed for marine environments. The enclosures are made of hot moulded fiberglass, reinforced polyester or stainless steel (AISI 304). Both enclosures are durable and produced from corrosion resistant materials.

- The enclosures can carry different battery technologies e.g. lead-acid, nickel-cadmium
- The enclosures are ventilated
- Support has a hot-dip galvanized surface treatment
- The enclosure together with the support makes the design extremely robust
- installation-friendly: the support can be pre-installed on the wall
- Door equipped with »DIN 3mm« locks, the door can be padlocked

Main Technical Specification

Size of Enclosure	800 x 600 x 300 mm (h x w x d)
Degree of protection	IP 34
Battery installation area	560x250mm
Weight	GRP 27 kg / Stainless steel 43 kg
Temperature range	-40°C...+140°C
